

INTRODUCING THE
AQUACART
 MOBILE PRO

SANZONATE™

SIMPLE, SAFE & EFFECTIVE

This unique Aqueous Ozone device provides an On-Site, On-Demand sanitizing and cleaning solution using a mobile cart.

for MID TO LARGE SCALE USE LOCATIONS

AQUEOUS OZONE ON DEMAND

No storage, mixing or transporting chemicals – making it easier to keep all of your facilities sanitized and clean. The Aquacart Mobile features spray pressure of over 125 PSI for areas that need an additional boost of oxidized water and has a 12-gallon fill and recovery capacity.

BENEFITS TO USER

Sanitizes, Cleans, and Deodorizes all Surfaces.

Mobility to Apply AO Solution wherever you need it.

No Chemicals to Purchase, Store, and Use.

Up to 80% Savings in Chemical-based Cleaning & Sanitizing Agents.

Safe, Effective, Economical, and Sustainable.

FDA and USDA Approved as a Food Sanitizer.

EPA Registered and Regulated.

Exceeds World Health Organization Standards as a Sanitizing Agent.

SYSTEM FEATURES

On-site, On-demand Generation of Ozonated Water.

Delivers a 99.999% Reduction in most Common Bacteria/Viruses.

Fresh Water and Recovery Tanks each with 12-gallon Capacity.

Vacuum Hose and Wand Included.

Spray Gun with Boost to 125 psi.

Weights 95 lbs. with dimensions of 25" x 18" x 40".

Volumetric Rate Flow of 1 GPM (Gallons-per-Minute).

Ozone Concentration of 925 mV-ORP or 1.5 ppm mg/L.

Two-year Product Warranty.

AQUEOUS OZONE ON DEMAND

TECHNOLOGY

SANZONATE™

SIMPLE, SAFE & EFFECTIVE

Sanzonate's Aqueous Ozone technology simply converts potable water into ozonated water. This highly oxidized water is a powerful antimicrobial agent that safely and effectively inactivates most bacteria and viruses at >99.999% in less than 30 secs. Aqueous Ozone is also a very versatile solution that can be utilized to clean and deodorize in any environment.

WHAT IS AQUEOUS OZONE?

In nature, ozone is formed by lightning causing an ordinary oxygen molecule (O₂) to split into two oxygen atoms (O), which rejoin the ordinary molecules (O₂) to form Ozone or O₃. Ozone can also be synthesized or man-made by combining an electrical charge with oxygen creating O₃ which is infused into water. Thus, the term Aqueous Ozone.

Our EPA registered technologies allow our customers to safely and effectively sanitize, clean, and deodorize any environment without the use of chemicals.

WHAT ARE THE BENEFITS OF AQUEOUS OZONE?

Generates an Endless Supply of a Safe, yet Highly Effective Sanitizer and All-purpose Cleaner.

Saves up to 80% in Monthly Costs for Traditional Chemical-based Cleaning/Disinfecting Agents.

Produces On-site, On-demand Ozonated Water at about 1 penny per gallon.

No Chemicals to store, mix, transport, handle, dispense, etc.

No PPE Requirements for staff or other personnel to dispense and apply the ozonated water.

Unique, Patented Technology.

Inactivates Viruses & Bacteria with an efficacy of 99.999% in 30 seconds or less.

Tested as a Sanitizer and a "Green" Cleaner on Stainless Steel, Ceramic Tile, Glass, Porcelain, Plastic and Porous Surfaces.

FDA Granted GRAS (Generally Recognized as Safe) Approval. Allows ozonated water on food and food contact surfaces.

USDA/FSIS Granted Approval. Ozonated water is safe and suitable for use in the production of meats and poultry.

USDA National Organic Allowed Substance. Ozonated water listed as "organic".

EPA/FIFRA Registered & Regulated. Ozonated water products are recognized as an antimicrobial device.

OSHA Standards. Ozonated water devices meet standards to protect workers from any harmful exposures.
